Signing: COP26 declaration on accelerating the transition to 100% zero-emission cars and vans

On behalf of the board of the electric MISSION, the executive Director is authorised to sign the COP26 declaration on accelerating the transition to 100% zero-emission cars and vans.

About the declaration

The COP26 international declaration on accelerating the transition to 100% zero-emission cars and vans aims to accelerate the transition to zero-emission vehicles in order to meet the goals of the Paris Agreement. Since the objectives of this declaration are fully in line with the corresponding objectives of the electric mission, and the commitment of as many actors as possible worldwide to these objectives is an important sign, the electric mission has decided to sign this declaration as well.

For: the electric Mission

Hiten Parmar

Executive Director
